"We are the importer of die casting machine and
Provide its maintenance service, strain gauging
And all its spares parts."

Introduction

It is our proud privilege to announce that looking At our good will & Market Leadership in the field of hydraulics, Bosch Rexroth has chosen us as their Dealer for their prestigious range of hydraulic & pneumatic Products.

A company is an Importer &Trader for the complete range of Bosch Rexroth Products. We currently carry large stocks of Bosch Rexroth India and Bosch Rexroth Germany products including their premier Germany models: A4VSO, A7VSO, A10VSO, A2FO, A2FM, A4VG Sereis pump etc.

Our vision is to serve all your needs and those of our thousands of customers. We are your “One stop shop” for all your hydraullic needs. we have offices all Over India from where We can serve you promptly and also hold large stocks for a broad of range of products.

We thank you for having been with us for over 2 years and making us today the Largest “House of Hydraullics” in India We are sure that we shall continue to get your whole hearted support in the future. We noe look forward to Your Valuable enquiries fo Bosch Rexroth Products. Polyhydron, Rexroth, Yuken, Rexroth Division of Global Hydraulics of companies.

Why Us

We are a reputed organization engaged in the provision of premium quality products. Our products are checked and approved on their quality by an adroit quality auditing team. Our durable and efficient products are also highly demanded in the overseas market beacause of their exceptional quality.

Reasons that have helped us become a preferable frm for our clients are:

State-of -the-art infrastructure and spacious warehouse Vast product line Quality assured Products Experienced quality auditors Timely product delivery with affordable pricing policy Transparent business practices

HYDRAULIC PUMPS

With the support of our team of producing agent, we are offering quality assured Hydraulic pumps. These hydraulic pumps are a mechanical source of power that converts mechnical power into hydraulic energy. Our offered induced by the load at the pump outlet

We are dealing with Danfoss, Eaten, Nachi, Parker, Rexorth,Polyhydron, Tokimec, & Yuken pumps.

Features :

Hydraulics Valve

With the support of our team of procuring agent, we are offering quality assured hydraulics valve. These Valves are a mechanical source of power that converts mechanical power into hydraulic energy. our offered generates flow with enough power to overcome pressure induced by the oad at the valve outlet.

We are dealing with Danfons, Eaton, Nachi, Rexorth, Polyhydron, Tokimec, & Yuken Valves.

Features :
Optimum finish
Precise dimensions
High strength

Types Hydraulic Valve

Directional control valves
Pressure control valves
Modular valves
Logic valves
Proportional electro - hydraulic
Flow control valves

Pump kit & Shaft

We are offering a superior quality of Tokimec Replacement CARTRIDGE KITS and SHAFTS.This will be a one to one replacement in your current Tokimec Pump. The product is widely appreciated for its incomparable attributes like long service life and low maintenance. The product is imported from Japan. In order to meet the divergent demands of the clients, we offer these products in diverse sizes within the stipulated time frame.

We Offer Tokimec Replacement Cartridge Kits In Both V Type And VQ Type.

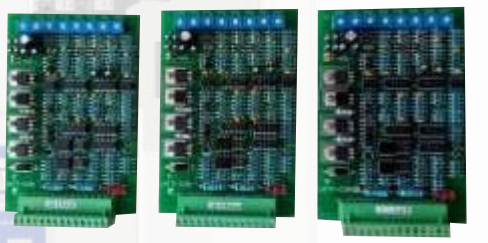

HMI & Propositional Card

Global Hydraulics Solution is a trusted name in the industry that manufactures Human Interface Machines. These efficient and high functionality machines are used for providing complete visualization & control between a human and a machine or application. The proposed collection finds a significant role in monitoring, controlling, diagnosing and managing the applications.

Features :

- Efficient
- Provides full visualization and control
- Easy to design and set up

PLC

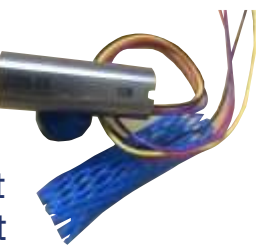

PLC implementation, testing, and support of each and project. KMPS can provide fully automated systems with sequential operations for continuous, batch (ISA88), and semi-batch processes. we can provide extensive documentation for the control system, control panels, and electrical design which can be tailored to customer specific requirements.

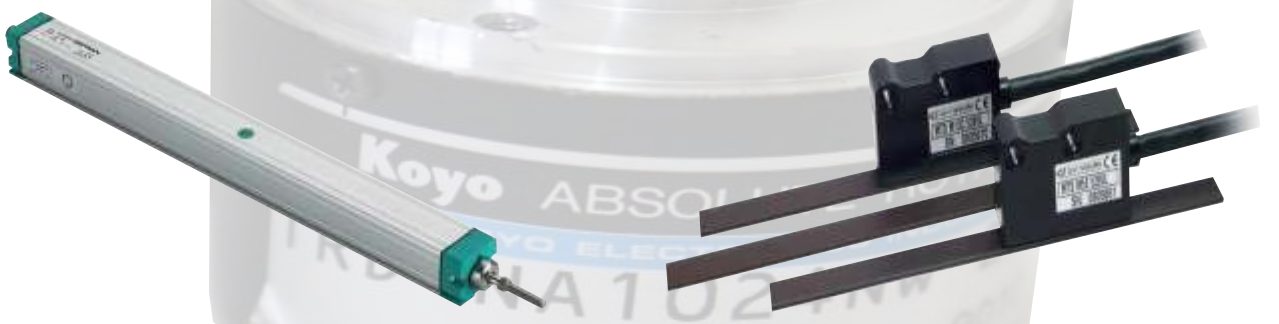

Linear Transducer (LVDT) & Short Sensor

We provide linear transducers for hydraulic applications, injection molding machines and other positioning applications. Our Linear Transducers include Non-Contact Magnetostritive, Linear Position, Displacement Linear Transducers, Rod or Rodless as well as Compact Linear Displacement Transducers. We can also customize the product for your application needs.

We provide competitive pricing for OEM's, End Users and Distributors and offer free technical support.
